

# 1991 Subject Index

## A Guide to MP Volume 30

*This index is an alphabetical list of topics included in Volume 30 of Materials Performance. Information classifications (**bold headings**) are followed by subject, issue number, and beginning page number. For example, information concerning catastrophic failure in aircraft is found under **AIRCRAFT**, in the March issue (3), in an article that begins on page 80.*

### A

#### **ABRASION**

Guide to Weld and Thermal Spray Hardfacing in Pulp and Paper Industry, 10-55, 11-70  
Inorganic Coating Systems, 11-34  
Practical Guide to Wear, 2-64  
Wear Simulation of Sucker Rod Couplings, 9-62

#### **ABRASIVE BLAST CLEANING**

Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56  
Thermal Reclamation of Spent Blasting Abrasive, 11-32

#### **ABSORPTION**

Controlling Moisture Absorption, 4-68

#### **ACETATES**

Elastomeric Sealant Causes Solder Corrosion, 6-72

#### **ACID, HYDROCHLORIC**

Corrosion Engineering in Chemical Process Industries, 6-63  
Expansion Joints at NASA Space Shuttle Launch Site, 4-45  
Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

#### **ACID, NITRIC**

Corrosion Engineering in Chemical Process Industries, 6-63

#### **ACID, PHOSPHORIC**

Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

#### **ACID RAIN**

Acid Deposition Impacts on Historic Bronze and Marble Statuary and Monuments, 11-53

#### **ACID RESISTANT**

Waterborne Exterior Coatings in Railcar Industry, 3-35

#### **ACID, SULFURIC**

Cleaning Lined and Unlined Tank Cars for Lining Application, 5-34  
Corrosion Engineering in Chemical Process Industries, 6-63  
Materials for Piping in Sulfuric Acid Production Plants, 9-57  
Unforeseen Circumstances—Why Get Overheated?, 11-75

#### **ACIDS**

Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39

#### **ACIDS, ACETIC**

Elastomeric Sealant Causes Solder Corrosion, 6-72

#### **ACRYLIC**

Developments in Coating Technology—A Marketing Perspective, 3-31  
Waterborne Exterior Coatings in Railcar Industry, 3-35

#### **ACTIVATOR, HALIDE**

Chromized/Siliconized Diffusion Coatings for Iron-Base Alloys by Pack Cementation, 9-41

#### **ADHESION**

Inorganic Coating Systems, 11-34  
Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

#### **ADHESIVES**

Developments in Coating Technology—A Marketing Perspective, 3-31  
Elastomeric Sealant Causes Solder Corrosion, 6-72

#### **ALKALI RESISTANT**

Waterborne Exterior Coatings in Railcar Industry, 3-35

#### **ALKYD**

Developments in Coating Technology—A Marketing Perspective, 3-31

#### **ALLOYS, CORROSION-RESISTANT**

Corrosion-Resistant Alloys for Sour Service, 12-56  
New Development in Corrosion-Resistant Alloys for Marine Applications, 8-72

#### **ALTERNATING CURRENT**

Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14

#### **ALUMINUM**

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48  
Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
Keyhole Corrosion Mystery Solved—Stainless Steel Installed, 2-74  
Response of Aluminum Alloys to Particle Impacts, 2-80

#### **ALUMINUM, ANODIZED**

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48

#### **AMMONIA**

Integrity of Ammonia Storage Vessels—Life Prediction Based on SCC Experience, 11-61

#### **AMMONIUM**

Cats Cause Automotive Panel Corrosion, 7-63

#### **ANAEROBIC**

A Case for Titanium's Resistance to MIC, 1-58

#### **ANION**

Cats Cause Automotive Panel Corrosion, 7-63

#### **ANODE**

CP for Steel Bulkheads Under Relieving Platforms, 11-20  
Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
Overlooked Data Available from Offshore Survey, 7-26

#### **ANODE-BACKFILL SYSTEM**

Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22

#### **ANODE, GALVANIC**

CP of Aboveground Tank Bottoms with Secondary Containment Liners, 4-22

#### **ANODE, IMPRESSED CURRENT**

Mesh Anode CP System, 5-18

#### **ANODE, SACRIFICIAL**

CP Using Scrap and Recycled Materials, 6-29  
Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
Rapid Polarization CP, 11-24

#### **ANODE, TITANIUM**

Mesh Anode CP System, 5-18

#### **ANODIC PROTECTION**

Materials for Piping in Sulfuric Acid Production Plants, 9-57

#### **ANTIFOULING**

Ranking Alloys for Susceptibility to MIC—Preliminary Report on High-Mo Alloys, 1-55

#### **ARCTIC**

CP in Arctic Waters, 2-24

#### **ATMOSPHERES, INDUSTRIAL**

Selecting Cost-Effective Protective Coating Systems, 2-39

#### **ATMOSPHERIC CAUSES**

Acid Deposition Impacts on Historic Bronze and Marble Statuary and Monuments, 11-53  
Developments in Coating Technology—A Marketing Perspective, 3-31  
Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56  
Role of Chromium in Weathering Steel Passivation, 1-62

#### **ATMOSPHERIC CORROSION**

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48  
Evaluation of Atmospheric Corrosion Rate Monitor as Time-of-Wetness Meter, 8-58  
Review of Corrosion Mechanisms Relevant to Automobile Corrosion, 5-45

#### **ATMOSPHERIC EXPOSURE TESTS**

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48

#### **ATMOSPHERIC EXPOSURE TESTS**

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48

# AUSTENITE

Improperly Manufactured HE Tubes Cause HISSC Failure, 9-66  
Quality Assurance Measures for Some Austenitic Stainless Steel Products in Corrosive Service, 7-54  
Performance of RA85H, A New Carburization- and Sulfidation-Resistant Alloy, 8-69

# AUTOMOBILE BODY

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48  
Influence of Deicing Salts on Motor Vehicle Corrosion, 5-42

# AUTOMOBILE CORROSION

Cats Cause Automotive Panel Corrosion, 7-63  
Coated Steel Sheets for Corrosion-Resistant Automobiles, 10-60  
Influence of Deicing Salts on Motor Vehicle Corrosion, 5-42  
Review of Corrosion Mechanisms Relevant to Automobile Corrosion, 5-45

# B

# BACKFILL, CARBON

Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22

# BACKFILL, MODIFIED

Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22

# BACTERIA

Effect of Marine Bacteria on Calcareous Deposition, 4-16

# BACTERIA, SULFATE-REDUCING

Electrochemical Exposure Rack Test Results, 9-18

# BARRIER

Polyethylene Encasement for Ductile Pipe, 8-32

# BILAMINATE

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48

# BIMETALLIC

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48  
Physical Scale Modeling Verification with Shipboard Trials, 5-26  
Rapid Polarization CP, 11-24

# BIOFILM

Effect of Marine Bacteria on Calcareous Deposition, 4-16

# BIOFOULING

Effect of Marine Bacteria on Calcareous Deposition, 4-16

# BIOLOGICAL

A Case for Titanium's Resistance to MIC, 1-58  
Investigation of MIC in West Texas Waterflood, 3-75  
Offshore Water Injection System: Problems and Solutions, 8-53  
Ranking Alloys for Susceptibility to MIC—Preliminary Report on High-Mo Alloys, 1-55

# BLEACH

Effect of pH and Temperature on FRP Composites in Sodium Hypochlorite Solutions, 7-47

# BOILER FEEDWATER

Steam Cycle Protection for Pulp and Paper Systems, 10-48

# BOILERS, RECOVERY

Incineration of Recycled Liquors and Other

Fuels in the Pulp and Paper Process, 10-45

# BOILING WATER REACTORS

Prevention of SCC in Boiling Water Reactors, 2-70

# BRIDGE

CP Design Problems for Reinforced Concrete, 8-28  
Mesh Anode CP System, 5-18

# BRONZE

Acid Deposition Impacts on Historic Bronze and Marble Statuary and Monuments, 11-53

# BUILDING

A Study of Practical Cases of Steel Corrosion in Reinforced Concrete, 8-42

# C

# CALCAREOUS DEPOSIT

Effect of Marine Bacteria on Calcareous Deposition, 4-16  
Rapid Polarization CP, 11-24

# CARBON

Coatings Could Protect Composites from Hostile Space Environment, 9-48  
Performance of RA85H, A New Carburization- and Sulfidation-Resistant Alloy, 8-69

# CARBON DIOXIDE

Carbonate-Type Cracking in FCC Wet Gas Compressor Station, 7-41  
Flow Effects on Erosion-Corrosion, 4-57  
Inhibitor Evaluations Under Controlled Hydrodynamic Shear, 1-43

# CARBON STEEL

AC-Impedance Technique for Optimizing H<sub>2</sub>S Scavenger Injection in Well Flowlines, 7-58  
Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39  
Integrity of Ammonia Storage Vessels—Life Prediction Based on SCC Experience, 11-61  
Relationship Between Pitting, Stress, and SCC of Line Pipe Steels, 10-23  
SCC of Carbon Steel in DEA and "ADIP" Solutions, 5-63

# CASE HISTORIES OR FAILURE ANALYSIS

Cats Cause Automotive Panel Corrosion, 7-63  
Chemical-Resistant Ceramics for the Process Industries, 1-71  
Corrosion Engineering in Chemical Process Industries, 6-63  
Economic Evaluation of Fiberglass Tubing in Gas Well Service, 3-57  
Improperly Manufactured HE Tubes Cause HISSC Failure, 9-66  
Performance of RA85H, A New Carburization- and Sulfidation-Resistant Alloy, 8-69  
Quality Assurance Measures for Some Austenitic Stainless Steel Products in Corrosive Service, 7-54  
Ranking Alloys for Susceptibility to MIC—Preliminary Report on High-Mo Alloys, 1-55  
Remaining-Life Prediction for Equipment in High-Temperature/Pressure Service, 4-61  
Successfully Using the 'Wrong' Material, 3-70  
Unforeseen Circumstances—Why Get Overheated?, 11-75

# CAST IRON, WHITE

New Development in Corrosion-Resistant Alloys for Marine Applications, 8-72

# CASTING EFFECTS

Quality Assurance Measures for Some Austenitic Stainless Steel Products in Corrosive Service, 7-54

# CATHODIC DISBONDMENT

Examination of Tests for Buried-Pipe Coatings, 1-18

# CATHODIC POLARIZATION

Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14

# CATHODIC PROTECTION

CP Design Problems for Reinforced Concrete, 8-28  
CP for Steel Bulkheads Under Relieving Platforms, 11-20  
CP in Arctic Waters, 2-24  
CP in Oilfield Brine, 12-16  
CP of Aboveground Tank Bottoms with Secondary Containment Liners, 4-22  
CP Using Scrap and Recycled Materials, 6-29  
Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14  
Effect of Marine Bacteria on Calcareous Deposition, 4-16  
Electrochemical Exposure Rack Test Results, 9-18  
Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
External Corrosion Control Methods for Aboveground Storage Tanks, 4-48  
Mesh Anode CP System, 5-18  
Monitoring Offshore CP Systems—Technologies and Regulatory Requirements, 8-23  
Overlooked Data Available from Offshore Survey, 7-26  
Physical Scale Modeling Verification with Shipboard Trials, 5-26  
Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22  
Rapid Polarization CP, 11-24  
The Right Choice—Water or High Solids?, 11-40  
Stray Current Corrosion During Marine Welding Operations, 2-30

# CAVITATION

Guide to Weld and Thermal Spray Hardfacing in Pulp and Paper Industry, 10-55, 11-70

# CEMENTATION, PACK

Chromized/Siliconized Diffusion Coatings for Iron-Base Alloys by Pack Cementation, 9-41

# CHEMICAL RECOVERY

Incineration of Recycled Liquors and Other Fuels in the Pulp and Paper Process, 10-45

# CHEMICAL RESISTANCE

Inorganic Coating Systems, 11-34

# CHLORIDE

Cats Cause Automotive Panel Corrosion, 7-63  
Corrosion of Reinforced Concrete in Taiwan, 3-38  
MIC of Austenitic Stainless Steel Weldments, 1-52  
Salt Penetration and Corrosion in Prestressed Concrete Members, 8-62

# CHROMIUM

Role of Chromium in Weathering Steel Passivation, 1-62

# CLEANING

Cleaning Lined and Unlined Tank Cars for Lining Application, 5-34  
Thermal Reclamation of Spent Blasting Abrasive, 11-32

# CLEANING, ABRASIVE BLAST

Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56

Thermal Reclamation of Spent Blasting  
Abrasive, 11-32

#### COAL

Safety and Pneumoconioses: Abrasive Blasting  
and Protective Respiratory Equipment, 9-32

#### COAL TAR

Testing Methods for Underground Pipeline  
Coatings, 12-22

#### COATING

Cleaning Lined and Unlined Tank Cars for  
Lining Application, 5-34  
Environmental and Health Concerns Relating to  
Water and Wastewater Coating and  
Painting Projects, 2-56  
External Corrosion Control Methods for  
Aboveground Storage Tanks, 4-48  
Selecting Cost-Effective Protective Coating  
Systems, 2-39

#### COATING, CONCRETE

Technical Specifications for Concrete Coatings  
Work, 6-36

#### COATING, DIFFUSION

Chromized/Siliconized Diffusion Coatings for  
Iron-Base Alloys by Pack Cementation, 9-41

#### COATING, FACTORY-APPLIED

Multilayer Coating Systems for Buried Pipelines,  
3-20

#### COATING, HIGH-TEMPERATURE

Multilayer Coating Systems for Buried Pipelines,  
3-20

#### COATING, POLYETHYLENE

Multilayer Coating Systems for Buried Pipelines,  
3-20

#### COATING, POLYPROPYLENE

Multilayer Coating Systems for Buried Pipelines,  
3-20

#### COATING REMOVAL

Cleaning Pipelines Using High-Pressure Water  
Jets, 9-25

#### COATINGS

Ambient Temperature Curing Waterborne  
Epoxy Systems, 1-28  
Cleaning Lined and Unlined Tank Cars for  
Lining Application, 5-34  
Coatings for Hypersonic Applications, 5-75  
Corrosion Inhibitive Waterborne Coating  
Successes and Formulation Tips, 1-33  
Developments in Coating Technology—A  
Marketing Perspective, 3-31  
Environmental and Health Concerns Relating to  
Water and Wastewater Coating and  
Painting Projects, 2-56  
Examination of Tests for Buried-Pipe Coatings,  
1-18  
Leakproofing Concrete Containment Structures,  
5-68  
Monolithic Linings and Coatings for Secondary  
Containment Structures, 8-36  
New Advancements in Internal Plastic Coatings  
for Enhanced Oil Recovery, 12-27  
The Right Choice—Water or High Solids?, 11-  
40  
Safety and Pneumoconioses: Abrasive Blasting  
and Protective Respiratory Equipment, 9-32  
Selecting Cost-Effective Protective Coating  
Systems, 2-39  
Technical Specifications for Concrete Coatings  
Work, 6-36  
Testing Methods for Underground Pipeline  
Coatings, 12-22

**COATINGS, INORGANIC**  
Inorganic Coating Systems, 11-34

Safety and Pneumoconioses: Abrasive Blasting  
and Protective Respiratory Equipment, 9-32

#### COATINGS, MULTIPHASE

Multilayer Coating Systems for Buried Pipelines,  
3-20

#### COATINGS, ORGANIC

Leakproofing Concrete Containment Structures,  
5-68  
Monolithic Linings and Coatings for Secondary  
Containment Structures, 8-36  
New Advancements in Internal Plastic Coatings  
for Enhanced Oil Recovery, 12-27  
The Right Choice—Water or High Solids?, 11-40  
Safety and Pneumoconioses: Abrasive Blasting  
and Protective Respiratory Equipment, 9-32

#### COATINGS, ZINC METAL

Cadmium-Coated Fasteners Cause LME, 1-67  
Coated Steel Sheets for Corrosion-Resistant  
Automobiles, 10-60

#### CODEPOSITION

Chromized/Siliconized Diffusion Coatings for Iron-  
Base Alloys by Pack Cementation, 9-41

#### COLD WORK

Improperly Manufactured HE Tubes Cause  
HISCC Failure

#### COMPOSITES

Coatings Could Protect Composites from Hostile  
Space Environment, 9-48  
Controlling Moisture Absorption, 4-68  
Developments in Coating Technology—A  
Marketing Perspective, 3-31  
LDEF Mission Update: Composites in Space, 9-  
46

#### COMPUTER CALCULATIONS

Conversion to an "On-Line" Corrosion Control  
Record System Using a Mainframe Computer,  
10-18  
Maintenance Painting Programs Founded on  
Desktop Computer Database, 10-33  
Remaining-Life Prediction for Equipment in High-  
Temperature/Pressure Service, 4-61  
Selecting Cost-Effective Protective Coating  
Systems, 2-39

#### CONCRETE

Ambient Temperature Curing Waterborne Epoxy  
Systems, 1-28  
CP Design Problems for Reinforced Concrete, 8-  
28  
CP Using Scrap and Recycled Materials, 6-29  
Electrical Inspection of Protective Coatings  
Applied to Concrete Surfaces, 7-33  
Leakproofing Concrete Containment Structures,  
5-68  
Mesh Anode CP System, 5-18  
Salt Penetration and Corrosion in Prestressed  
Concrete Members, 8-62  
Technical Specifications for Concrete Coatings  
Work, 6-36

#### CONCRETE, STEEL REINFORCED

CP Using Scrap and Recycled Materials, 6-29  
Corrosion of Reinforced Concrete in Taiwan, 3-38  
A Study of Practical Cases of Steel Corrosion in  
Reinforced Concrete, 8-42

#### CONTAINMENT

Leakproofing Concrete Containment Structures,  
5-68  
Regulatory Need for Containment Structures, 6-  
42

#### COPPER

Acid Deposition Impacts on Historic Bronze and  
Marble Statuary and Monuments, 11-53  
Comparison of Electronic Component Degradation

tion in Field and Laboratory Environments,  
6-55

Robotic Corrosion Inspection Crawler, 4-29

#### CORROSION ALLOWANCE

Corrosion Engineering in Chemical Process  
Industries, 6-63

#### CORROSION, GENERAL

Economic Evaluation of Fiberglass Tubing in  
Gas Well Service, 3-57  
Life Prediction of High-Pressure Gas Wells, 12-  
34

#### CORROSION KINETICS

Review of Corrosion Mechanisms Relevant to  
Automobile Corrosion, 5-45

#### CORROSION MECHANISMS

Review of Corrosion Mechanisms Relevant to  
Automobile Corrosion, 5-45

#### CORROSION PRODUCTS

Robotic Corrosion Inspection Crawler, 4-29

#### CORROSION RATE

Acid Deposition Impacts on Historic Bronze and  
Marble Statuary and Monuments, 11-53  
AC-Impedance Technique for Optimizing H<sub>2</sub>S  
Scavenger Injection in Well Flowlines, 7-58  
Investigation of MIC in West Texas Waterflood,  
3-75  
Salt Penetration and Corrosion in Prestressed  
Concrete Members, 8-62

#### CORROSION RESISTANCE

Ambient Temperature Curing Waterborne  
Epoxy Systems, 1-28  
A Case for Titanium's Resistance to MIC, 1-58  
Chemical-Resistant Ceramics for the Process  
Industries, 1-71  
Coated Steel Sheets for Corrosion-Resistant  
Automobiles, 10-60  
Economic Evaluation of Fiberglass Tubing in  
Gas Well Service, 3-57  
Effect of pH and Temperature on FRP  
Composites in Sodium Hypochlorite  
Solutions, 7-47  
Evaluating Localized Corrosion, 8-75  
Materials for Piping in Sulfuric Acid Production  
Plants, 9-57  
Monolithic Linings and Coatings for Secondary  
Containment Structures, 8-36  
New Development in Corrosion-Resistant Alloys  
for Marine Applications, 8-72  
The Right Choice—Water or High Solids?, 11-  
40

#### CORROSION THERMODYNAMICS

Review of Corrosion Mechanisms Relevant to  
Automobile Corrosion, 5-45

#### CORROSIVENESS

Economic Evaluation of Fiberglass Tubing in  
Gas Well Service, 3-57

#### COST PROJECTIONS, CONTROL

Maintenance Painting Programs Founded on  
Desktop Computer Database, 10-33

#### CRACK GROWTH RATE

Integrity of Ammonia Storage Vessels—Life  
Prediction Based on SCC Experience, 11-  
61

#### CRACKING

Leakproofing Concrete Containment Structures,  
5-68  
Life Prediction of High-Pressure Gas Wells, 12-  
34

#### CRACKING, CARBONATE

Carbonate-Type Cracking in FCC Wet Gas  
Compressor Station, 7-41

# **CRACKING, FLUID CATALYTIC**

Carbonate-Type Cracking in FCC Wet Gas Compressor Station, 7-41

# **CRACKING, HYDROGEN-INDUCED**

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43

# **CRACKING, HYDROGEN STRESS**

Improperly Manufactured HE Tubes Cause HISSC Failure, 9-66

# **CRACKING, HYDROGEN SULFIDE**

Life Prediction of High-Pressure Gas Wells, 12-34

# **CRACKING, STRESS CORROSION**

Corrosion-Resistant Alloys for Sour Service, 12-56

Integrity of Ammonia Storage Vessels—Life Prediction Based on SCC Experience, 11-61

Life Prediction of High-Pressure Gas Wells, 12-34

Prevention of SCC in Boiling Water Reactors, 2-70

Relationship Between Pitting, Stress, and SCC of Line Pipe Steels, 10-23

SCC of Carbon Steel in DEA and "ADIP" Solutions, 5-63

Testing and Evaluation of Corrosion-Resistant Alloys, 12-51

# **CRACKING, SULFIDE STRESS**

Corrosion-Resistant Alloys for Sour Service, 12-56

# **CREEP**

Remaining-Life Prediction for Equipment in High-Temperature/Pressure Service, 4-61

# **CREVICE CORROSION**

Evaluating Localized Corrosion, 8-75

MIC of Austenitic Stainless Steel Weldments, 1-52

Test Method to Evaluate Storage Compounds for Corrosion Inhibition, 5-52

# **CURRENT, ALTERNATING**

Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14

# **CURRENT DENSITY**

CP Design Problems for Reinforced Concrete, 8-28

CP in Oilfield Brine, 12-16

Effect of Marine Bacteria on Calcareous Deposition, 4-16

Rapid Polarization CP, 11-24

# **CURRENT EFFICIENCY**

CP of Aboveground Tank Bottoms with Secondary Containment Liners, 4-22

# **CURRENT, IMPRESSED**

Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22

Physical Scale Modeling Verification with Shipboard Trials, 5-26

Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22

# **CURRENT, STRAY**

Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14

Stray Current Corrosion During Marine Welding Operations, 2-30

# **D**

# **DEICING SALTS**

Automobile Atmospheric Corrosion—Testing

and Evaluation, 3-48

Influence of Deicing Salts on Motor Vehicle Corrosion, 5-42

# **DEPOSIT ATTACK**

Investigation of MIC in West Texas Waterflood, 3-75

# **DEPOSIT, CALCAREOUS**

Effect of Marine Bacteria on Calcareous Deposition, 4-16

Rapid Polarization CP, 11-24

# **DESIGN**

#### HYDROCHLORIC ACID

Corrosion Engineering in Chemical Process Industries, 6-63

Expansion Joints at NASA Space Shuttle Launch Site, 4-45

Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

#### HYDROGEN CHLORIDE

Corrosion Engineering in Chemical Process Industries, 6-63

#### HYDROGEN EMBRITTLEMENT

Corrosion-Resistant Alloys for Sour Service, 12-56

Electrochemical Exposure Rack Test Results, 9-18

Salt Penetration and Corrosion in Prestressed Concrete Members, 8-62

#### HYDROGEN GROOVING

Corrosion Engineering in Chemical Process Industries, 6-63

#### HYDROGEN-INDUCED CRACKING

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43

#### HYDROGEN PERMEATION MEASUREMENTS

Coatings for Hypersonic Applications, 5-75

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43

#### HYDROGEN STRESS CRACKING

Improperly Manufactured HE Tubes Cause HISCC Failure, 9-66

#### HYDROGEN SULFIDE

Carbonate-Type Cracking in FCC Wet Gas Compressor Station, 7-41

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43

Corrosion-Resistant Alloys for Sour Service, 12-56

Flow Loop Versus Rotating Probes—Experimental Results and Service Applications, 2-85

#### HYDROGEN SULFIDE CRACKING

Life Prediction of High-Pressure Gas Wells, 12-34

#### HYDROGEN WATER CHEMISTRY

Prevention of SCC in Boiling Water Reactors, 2-70

## I

**IMPEDANCE**

AC-Impedance Technique for Optimizing H<sub>2</sub>S Scavenger Injection in Well Flowlines, 7-58

**IMPRESSED CURRENT**

Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
Physical Scale Modeling Verification with Shipboard Trials, 5-26  
Possibilities for Increasing Effectiveness of Anode-Backfill Systems, 7-22

**IMPRESSED CURRENT ANODE**

Mesh Anode CP System, 5-18

**INCOLOYS**

Testing and Evaluation of Corrosion-Resistant Alloys, 12-51

**INDUSTRIAL ATMOSPHERES**

Selecting Cost-Effective Protective Coating Systems, 2-39

**INHIBITOR MECHANISMS**

Inhibitor Evaluations Under Controlled Hydrodynamic Shear, 1-43

**INHIBITORS**

AC-Impedance Technique for Optimizing H<sub>2</sub>S Scavenger Injection in Well Flowlines, 7-58  
Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39  
Flow Loop Versus Rotating Probes—Experimental Results and Service Applications, 2-85  
Offshore Water Injection System: Problems and Solutions, 8-53  
Steam Cycle Protection for Pulp and Paper Systems, 10-48

**INHIBITORS, ACID**

Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39

**INSTRUMENTATION, TESTING**

Electrical Inspection of Protective Coatings Applied to Concrete Surfaces, 7-33

**IRON, DUCTILE**

Polyethylene Encasement for Ductile Pipe, 8-32

## L

**LEAD**

Elastomeric Sealant Causes Solder Corrosion, 6-72

**LIFE PREDICTION**

Integrity of Ammonia Storage Vessels—Life Prediction Based on SCC Experience, 11-61  
Life Prediction of High-Pressure Gas Wells, 12-34  
Remaining-Life Prediction for Equipment in High-Temperature/Pressure Service, 4-61

**LININGS**

Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

**LIQUID METAL EMBRITTLEMENT**

Cadmium-Coated Fasteners Cause LME, 1-67

**LIQUORS, BLACK**

Incineration of Recycled Liquors and Other Fuels in the Pulp and Paper Process, 10-45

**LOCALIZED ATTACK**

Evaluating Localized Corrosion, 8-75  
Expansion Joints at NASA Space Shuttle Launch Site, 4-45  
Flow Loop Versus Rotating Probes—

Experimental Results and Service Applications, 2-85

**LOCALIZED CORROSION MECHANISMS**

Review of Corrosion Mechanisms Relevant to Automobile Corrosion, 5-45

## M

**MAGNETIC DETECTION**

Corrosion Detection on Underground Gas Pipeline by Magnetically Assisted AC Impedance, 3-14

**MAGNETIC FLUX LEAKAGE**

Magnetic Flux Leakage Inspection Pigs for Hard Spot Detection and Repair, 6-26

**MAGNETITE**

Steam Cycle Protection for Pulp and Paper Systems, 10-48

**MARINE**

Effect of Marine Bacteria on Calcareous Deposition, 4-16  
New Development in Corrosion-Resistant Alloys for Marine Applications, 8-72

**MARTENSITE**

Improperly Manufactured HE Tubes Cause HISSC Failure, 9-66

**MASS TRANSFER**

Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39

**MATERIALS, NONMETALLIC**

Chemical-Resistant Ceramics for the Process Industries, 1-71  
Coatings Could Protect Composites from Hostile Space Environment, 9-48  
Developments in Coating Technology—A Marketing Perspective, 3-31  
Economic Evaluation of Fiberglass Tubing in Gas Well Service, 3-57  
Life Estimation of Elastomers Using Temperature-Stress Acceleration Techniques, 6-52  
New Advancements in Internal Plastic Coatings for Enhanced Oil Recovery, 12-27  
Ranking Alloys for Susceptibility to MIC—Preliminary Report on High-Mo Alloys, 1-55

**MECHANICAL PROPERTIES**

Response of Aluminum Alloys to Particle Impacts, 2-80

**METALLIZING**

Guide to Weld and Thermal Spray Hardfacing in Pulp and Paper Industry, 10-55, 11-70

**MICROBIOLOGICALLY INFLUENCED**
**CORROSION**

A Case for Titanium's Resistance to MIC, 1-58  
Electrochemical Exposure Rack Test Results, 9-18  
Investigation of MIC in West Texas Waterflood, 3-75  
MIC of Austenitic Stainless Steel Weldments, 1-52  
Offshore Water Injection System: Problems and Solutions, 8-53

**MICROPROBE**

Response of Aluminum Alloys to Particle Impacts, 2-80

**MICROSTRUCTURE**

Coated Steel Sheets for Corrosion-Resistant Automobiles, 10-60

**MOLDING**

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48

**MONITORING, CORROSION**

Corrosion Engineering in Chemical Process Industries, 6-63

**MORPHOLOGICAL PHENOMENA**

Coatings Could Protect Composites from Hostile Space Environment, 9-48

## N

**NATURAL GAS DISTRIBUTION, TRANSMISSION, STORAGE**

Conversion to an "On-Line" Corrosion Control Record System Using a Mainframe Computer, 10-18

**NICKEL AND ALLOYS**

Corrosion-Resistant Alloys for Sour Service, 11-56  
Life Prediction of High-Pressure Gas Wells, 12-34  
Prevention of SCC in Boiling Water Reactors, 2-70  
Testing and Evaluation of Corrosion-Resistant Alloys, 12-51

**NICKEL-CHROMIUM PLATING**

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48

**NITRIC ACID**

Corrosion Engineering in Chemical Process Industries, 6-63

**NONFLAMMABLE**

Inorganic Coating Systems, 11-34

**NONMETALLIC MATERIALS**

Chemical-Resistant Ceramics for the Process Industries, 1-71  
Coatings Could Protect Composites from Hostile Space Environment, 9-48  
Developments in Coating Technology—A Marketing Perspective, 3-31  
Economic Evaluation of Fiberglass Tubing in Gas Well Service, 3-57  
Life Estimation of Elastomers Using Temperature-Stress Acceleration Techniques, 6-52  
New Advancements in Internal Plastic Coatings for Enhanced Oil Recovery, 12-27  
Ranking Alloys for Susceptibility to MIC—Preliminary Report on High-Mo Alloys, 1-55

**NUCLEAR POWER PLANTS**

Prevention of SCC in Boiling Water Reactors, 2-70

## O

**OIL, SOUR**

Flow Loop Versus Rotating Probes—Experimental Results and Service Applications, 2-85

**OVERHEATING**

Unforeseen Circumstances—Why Get Overheated?, 11-75

**OXIDATION**

Oxidation of 6% Mo Alloys During Annealing, 4-56  
Performance of RA85H, A New Carburizing and Sulfidation-Resistant Alloy, 8-69

**OXIDATION, CYCLIC**

Chromized/Siliconized Diffusion Coatings for Iron-Base Alloys by Pack Cementation, 9-41

**OXYGEN**

Corrosion of Reinforced Concrete in Taiwan, 3-38  
Offshore Water Injection System: Problems and Solutions, 8-53

Steam Cycle Protection for Pulp and Paper Systems, 10-48

## P

# T

# TANK BOTTOMS

CP of Aboveground Tank Bottoms with Secondary Containment Liners, 4-22

# TANKS

Maximizing Lining Life of Rubber-Lined Tank Cars, 5-58

# TAPE

Testing Methods for Underground Pipeline Coatings, 12-22

# TEMPERATURE

Ambient Temperature Curing Waterborne Epoxy Systems, 1-28  
Life Estimation of Elastomers Using Temperature-Stress Acceleration Techniques, 6-52  
Remaining-Life Prediction for Equipment in High-Temperature/Pressure Service, 4-61  
Unforeseen Circumstances—Why Get Overheated?, 11-75

# TEST ENVIRONMENT

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43

# TEST EQUIPMENT

Robotic Corrosion Inspection Crawler, 4-29

# TEST METHODS

Correlation of Laboratory HIC Test and Field Sour Gas Environments Using Hydrogen Permeation Measurements, 12-43  
Corrosion-Resistant Alloys for Sour Service, 12-56  
Predicting Corrosion of Steel in Crude Oil Production, 3-63

# TEST, SALT SPRAY

Automobile Atmospheric Corrosion—Testing and Evaluation, 4-48

# TEST, SLOW STRAIN RATE

Testing and Evaluation of Corrosion-Resistant Alloys, 12-51

# TESTING

Testing Methods for Underground Pipeline Coatings, 12-22

# TESTING, ACOUSTICAL

External Corrosion Control Methods for Aboveground Storage Tanks, 4-48

# TESTING, AUTOCLAVE

Flow Loop Versus Rotating Probes—Experimental Results and Service Applications, 2-85  
Testing and Evaluation of Corrosion-Resistant Alloys, 12-51

# TESTING, CYCLIC

Life Estimation of Elastomers Using Temperature-Stress Acceleration Techniques, 6-52

# TESTING, ELECTRICAL

Electrical Inspection of Protective Coatings Applied to Concrete Surfaces, 7-33

# TESTING, IMPACT

Examination of Tests for Buried-Pipe Coatings, 1-18

# TESTING INSTRUMENTATION

Electrical Inspection of Protective Coatings Applied to Concrete Surfaces, 7-33

# TESTING, NONDESTRUCTIVE

Electrical Inspection of Protective Coatings Applied to Concrete Surfaces, 7-33

# TESTS, ATMOSPHERIC EXPOSURE

Automobile Atmospheric Corrosion—Testing and Evaluation, 3-48

# TESTS, INHIBITOR

Inhibitor Evaluations Under Controlled Hydrodynamic Shear, 1-43

# TESTS, LABORATORY

Flow Effects on Erosion-Corrosion, 4-57

# THERMAL RECLAMATION

Thermal Reclamation of Spent Blasting Abrasive, 11-32

# TIME-OF-WETNESS

Evaluation of Atmospheric Corrosion Rate Monitor as Time-of-Wetness Meter, 8-58

# TIN

Elastomeric Sealant Causes Solder Corrosion, 6-72

# TITANIUM

A Case for Titanium's Resistance to MIC, 1-58

# TITANIUM ANODE

Mesh Anode CP System, 5-18

# TRIM

Corrosion Behavior of Exterior Automotive Trim Systems, 11-48

# TURBULENCE

Effect of Flow on Corrosion Inhibition of Steel in HCl, 1-39

# V

# VALVES

Quality Assurance Measures for Some Austenitic Stainless Steel Products in Corrosive Service, 7-54

# VELOCITY

Flow Effects on Erosion-Corrosion, 4-57  
Flow Loop Versus Rotating Probes—Experimental Results and Service Applications, 2-85  
Inhibitor Evaluations Under Controlled Hydrodynamic Shear, 1-43  
Materials for Piping in Sulfuric Acid Production Plants, 9-57  
Physical Scale Modeling Verification with Shipboard Trials, 5-26

# VINYL

Waterborne Exterior Coatings in Railcar Industry, 3-35

# VINYL ESTER RESIN

Effect of pH and Temperature on FRP Composites in Sodium Hypochlorite Solutions, 7-47

# VOLATILE ORGANIC COMPOUNDS

Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56

# W

# WATER

Ambient Temperature Curing Waterborne Epoxy Systems, 1-28  
CP for Steel Bulkheads Under Relieving Platforms, 11-20  
Corrosion Inhibitive Waterborne Coating Successes and Formulation Tips, 1-33  
Electrochemical Protection of Domestic Hot and Cold Water Systems, 1-22  
Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56  
New Advancements in Internal Plastic Coatings for Enhanced Oil Recovery, 12-27  
Predicting Corrosion of Steel in Crude Oil Production, 3-63  
The Right Choice—Water or High Solids?, 11-40  
Waterborne Exterior Coatings in Railcar Industry, 3-35

# WATER, GROUND

External Corrosion Control Methods for Aboveground Storage Tanks, 4-48

# WATER JET

Cleaning Pipelines Using High-Pressure Water Jets, 9-25

# WATER, WASTE

Environmental and Health Concerns Relating to Water and Wastewater Coating and Painting Projects, 2-56

# WEAR

Guide to Weld and Thermal Spray Hardfacing in Pulp and Paper Industry, 10-55, 11-70  
Practical Guide to Wear, 2-64  
Wear Simulation of Sucker Rod Couplings, 9-62

# WEIGHT LOSS

Coatings Could Protect Composites from Hostile Space Environment, 9-48  
Investigation of MIC in West Texas Waterflood, 3-75

# WELD

MIC of Austenitic Stainless Steel Weldments, 1-52  
Performance of RA85H, A New Carburization- and Sulfidation-Resistant Alloy, 8-69  
Quality Assurance Measures for Some Austenitic Stainless Steel Products in Corrosive Service, 7-54

# WELD DECAY

Stray Current Corrosion During Marine Welding Operations, 2-30

# WEATHER RESISTANCE

Inorganic Coating Systems, 11-34

# Z

# ZINC

Acid Deposition Impacts on Historic Bronze and Marble Statuary and Monuments, 11-53  
CP Using Scrap and Recycled Materials, 6-29

# ZINC METAL COATINGS

Cadmium-Coated Fasteners Cause LME, 1-67  
Coated Steel Sheets for Corrosion-Resistant Automobiles, 10-60

More  
than 30 videos  
on coatings and  
linings alone!

## Corrosion Education Productions Video Programs

Exclusively from NACE

Consulting engineers, technical institutes or universities, architects, contractors, mining and mineral processing companies, and equipment manufacturers will find the Corrosion Education Productions' (CEP) video programs an invaluable educational tool. CEP's comprehensive and in-depth series is divided into six volumes covering 54 individual programs which cater to the user's specific needs.
